Dear Friend:

Here's Root's price list for Spring 1925, very modest indeed, without any "Frills or Fineries", just a plain price list. We hope it looks like a good old friend to you.

While we write we have before us a number of catalogues of widely advertised nursery concerns, they are very beautiful, chock full of illustrations and descriptions of wonderful new and old varieties. Undoubtedly these beautiful catalogues are the pride of the owners.

The question of a descriptive illustrated catalogue for Root's Nurseries has come up and been considered a number of times, upon investigation we find that the catalogue houses, who claim that they have greatly reduced prices of nursery stock to the planters, are asking 20 to 75% more for their stock than prices on enclosed list. We have come to the conclusion that our friends do not care to buy a beautiful catalogue for their library table but want the best nursery stock to be had, at reasonable prices, therefore we have been concentrating our energies along that line.

Owing to the orders received from our many old and new friends our business in 1924 increased 20% over 1923. The largest increase in business was in Ornamentals, people are beginning to realize the pleasure and profit in "Planting the Home Grounds", especially where they can go direct to the nursery and select the stock they want. Our old friends, the Fruit Growers, have not deserted us, which is evident by the number of nice orders we already have on file for Spring delivery.

We thank you for the business you have given us and trust the stock has proven satisfactory. If not, kindly let us know. If you have any friends who you think would be benefited by our price list, we would be pleased to receive their names.

Hoping to hear from you regarding your wants for 1925.

Very truly yours,

ROOT'S NURSERIES Inc.
